SUPPLEMENTAL NARRATIVE - Stephen Heller

On January 4th, 2022, I contacted Mary Bridge Children's Hospital by phone to follow up with Pediatric Endocrinology Dr. Barbara Thompson. Dr. Thompson was the Endocrinologist who worked with [Identi] and her parents/foster parents the majority of the time she attended. While speaking with nursing staff at Mary Bridge Children's Hospital Endocrinology, I was advised that Dr. Thompson did recall working with [Identi]. The staff and Dr. Thompson remembered the treatment plan made to better [Identi]'s health. I was informed the importance of [Identi]'s treatment and their concerns on getting [Identi] back on the medication. Dr. Thompson's Office will be sending CPS and the involved social worker instructions on providing the medication to [Identi], because they wanted to make sure [Identi] was being taken care of properly.

On January 12th, 2022, I received an email from DCYF supervisor Rebecca Sanchez. The email contained hair follicle test results. The testing was conducted as a DCYF procedure for their investigation. The sample for the test was taken from [Identifying] and collected on December 10th, 2021. The company that conducted the testing was Cordant Health Solutions with a note indicating the testing was performed at American Forensic Toxicology Services. The test results indicated [Identi]'s hair follicle showed presence of Methamphetamine and Amphetamine. The report showed the results of 816 pg/mg of Amphetamine with a cutoff of 200 pg/mg. The report showed the results of > 10000 pg/mg of Amphetamine with a cutoff of 200 pg/mg. The email also contained DCYF chain of custody forms for [Identi] and [Identifying]'s hair test. [Identi]'s chain of custody form indicated the sample was obtained on 12/10/2021. The chain of custody form was signed by [Identi]'s foster parent with a note that the hair sample was from a minor with the guardians signature. [Identi]'s chain of custody form indicated the sample was obtained on 12/13/2021. The chain of custody form was signed by Robbie Ibabao who is his grandmother and guardian. The report indicated it was signed by [Identi]'s grandmother. At the bottom of the form, a note indicated "collected as much hair as possible, client has very short hair".

On January 13th, 2022, I received hair follicle test results for Brodi. The sample for the test was taken from Brodi on January 4th, 2022 with the consent of his biological father Trever Perez. The company that conducted the testing was MEDTOX Laboratories Inc. The test results indicated Brodi was negative for methamphetamine and amphetamine.

On January 19th, 2022, I contacted Gwen Boling by phone to ask her questions about [Identi]. Gwen agreed to provide a voluntary recorded statement over the phone. In summary, Gwen said she had [Identi] placed into her home by CPS for about three years. [Identi] was reunified with her parents, Jordan and Andrew, in 2019. When Gwen first received [Identi] into her home at about two years old, Gwen was aware of [Identi]'s medical conditions. Gwen explained how she had to take [Identi] through speech therapy, teach [Identi] how to put on her shoes, eat solid food, drink out of a sippy cup, and take [Identi] to Mary Bridge Children's hospital appointments. Gwen had to teach [Identi] the basics with drinking because [Identi] could only drink out of a sponge when she first came into her home. Gwen said she had to administer a medication shot every night to [Identi]. Gwen explained how she had to go through training with Mary Bridge staff on the reasons for the medications, and how to administer the medications. Gwen further explained how important the medications were for [Identi] and her future development. Mary Bridge provided a nurse to Gwen to train her how to administer the medication. Gwen seemed to have a lot of knowledge about the medications and how to administer the medications. Gwen said Jordan and Andrew also received the training on the medications and how to administer them. Gwen recalled the nurse not only training her how to administer the medications, but Gwen had to show the nurse she was proficient in administering the medications. When [Identi] started spending the weekends with Jordan and Andrew, Gwen would send the medications with her. Gwen said this was a medication that needed to be taken every day, and she believed Jordan and Andrew were trained like she was prior to the weekend visits. I asked Gwen if the medications were paid for by her. Gwen said [Identi] was covered under state medical insurance due to her disability and foster care. Gwen explained that [Identi]'s medical insurance paid for all of [Identi]'s medical appointments and medications. Gwen said she did not have to pay out of pocket for any of [Identi]'s medications or medical appointments. Gwen believes [Identi] is still under the same state medical insurance, so her appointments and medications should still be at no cost. I asked Gwen how she obtained the medications for [Identi]. Gwen said the medications would be delivered to her residence after calling a phone number provided to her. Gwen would call the number for the pharmacy a week prior to the medications running out, and the medications would be mailed to her home address. Gwen never had any issues with the medications not showing up or insurance not paying for the medications. Gwen never experienced any issues with obtaining the medications or having

any confusion on how to obtain the medications for [Identi]. When Gwen was trained on how to administer the medications, she was also provided the information on how to fill the medications and who to contact. Gwen remembered giving the contact information for the pharmacy to Jordan and Andrew. I concluded the recorded statement with Gwen. Gwen's recorded statement has been uploaded to the case.

During the review of a separate investigation, Daniel Kohmeier, Mark Murphy, and Todd Ritter were identified as visiting and/or residing at the address of 177 Bartell Rd Oakville, Washington. During that separate investigation, I did not locate any other persons that spent any time on the property.

On January 20th, 2022, I traveled to Rochester and contacted Daniel. During my previous conversation with Daniel, he mentioned living on the property with Jordan and Andrew. Daniel stated that he moved to the property before the summer of 2021. Daniel lived on the property until approximately October 23rd, 2021. Daniel explained that he did not see anyone else on the property while he was living there. It should be noted, Daniel lived on the property for the longest duration of time compared to Todd and Mark, and at this time is the last known person, besides Jordan, Andrew and their children, to reside on the property. Daniel agreed to provide a recorded statement to me. In summary, Daniel was asked about his methamphetamine use. Daniel said he did use methamphetamine while staying at the residence on Bartell Rd. I asked if Daniel knew if Jordan and Andrew used methamphetamine. Daniel said "I'm sure he does, I know she does. I've done it with her". Daniel said he has spent time in the residence, and remembers seeing [Identi] and [Identifi]. Daniel admitted to using methamphetamine when he was on the property. Daniel denied ever smoking methamphetamine around the kids. Daniel denied blowing any smoke in the children's faces. Daniel did not know if Jordan or Andrew smoked around the kids. Daniel recalled getting his methamphetamine from Jordan. Daniel said he would keep his methamphetamine in his pocket. When I asked if he ever lost his methamphetamine, Daniel replied "Oh hell no. That be a dumb thing. That's a party foul there". Daniel recalled Jordan keeping her methamphetamine with her in her purse. I asked Daniel if Jordan always had the "biggest bag" of methamphetamine. Daniel agreed and said Jordan was never without methamphetamine. Daniel mentioned it being sad that Jordan was "doing it" around her kids. Daniel further explained that it was a "no no" to do that around kids. Daniel explained how anyone with kids knows not to do that around kids because they don't have a choice and its not right. I concluded the recorded statement with Daniel. The audio recording has been uploaded to the department drive.

Mark Murphy was interviewed by Chief Wallace on January 27th, 2022. Reference Chief Wallace's report for details on the interview. I will complete a follow up report after contacting Todd. I have been unable to locate anyone further that may have been staying or visiting on the property besides Mark, Daniel, and Todd in the past year.
